

Digital PTT - Current Operational Flow

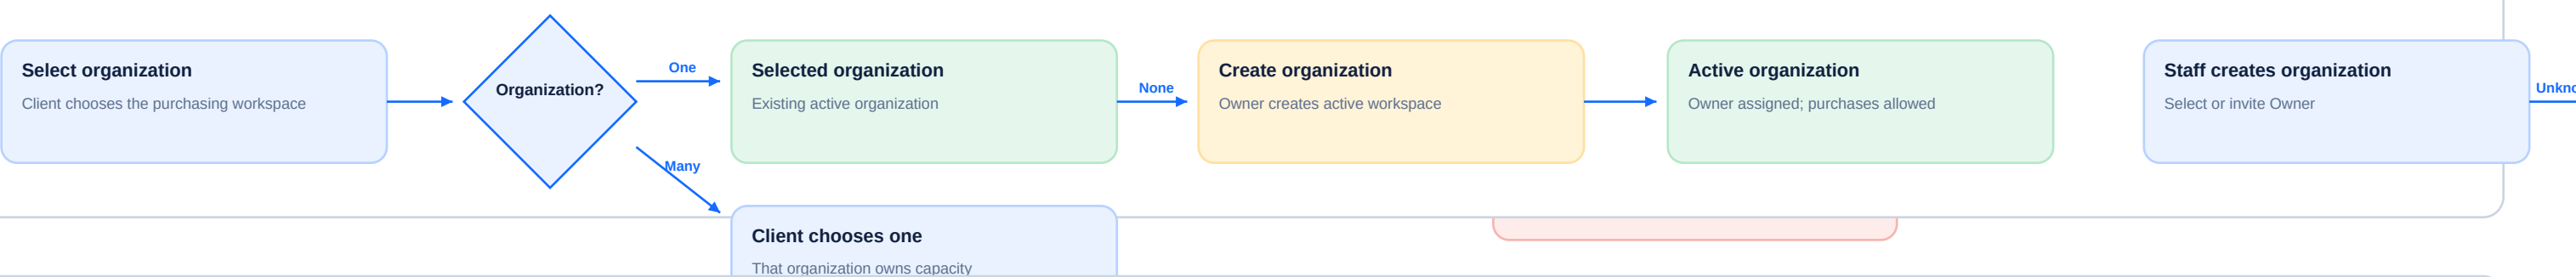

CURRENT POLICY

Verified payment is required before provisioning

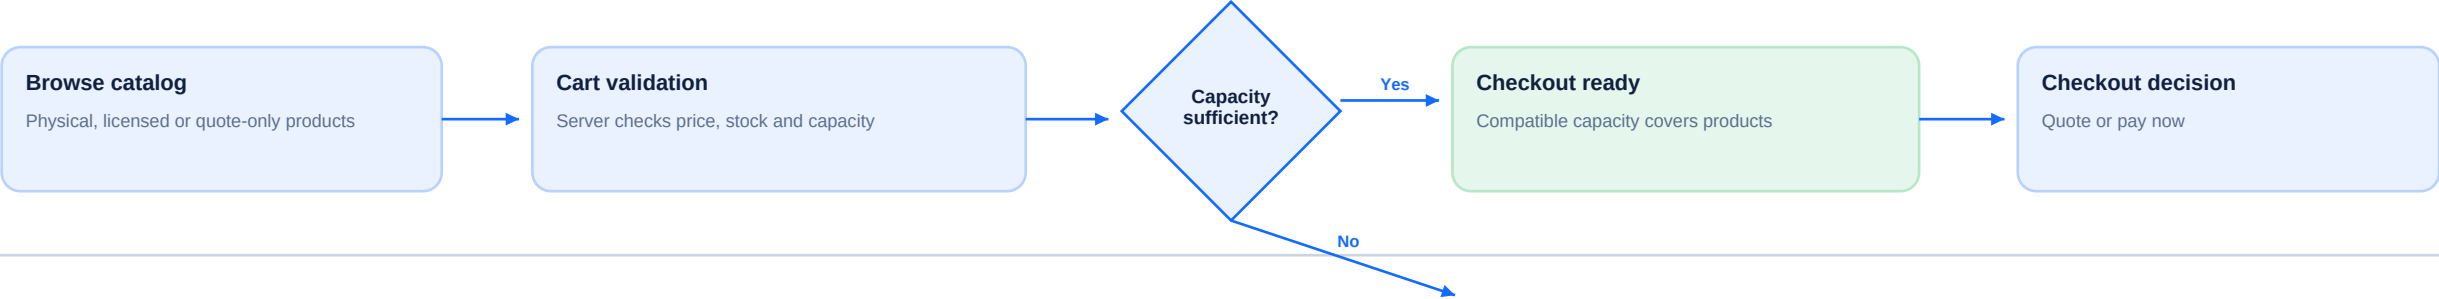

1. Customer identity and quote access

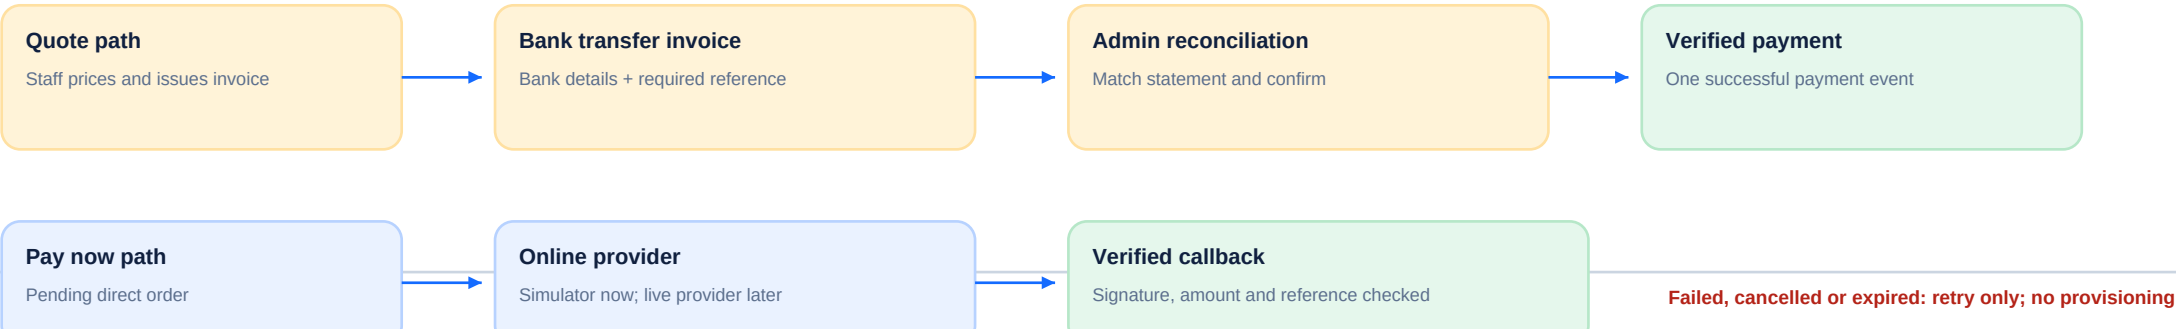

2. Organization ownership before license purchase

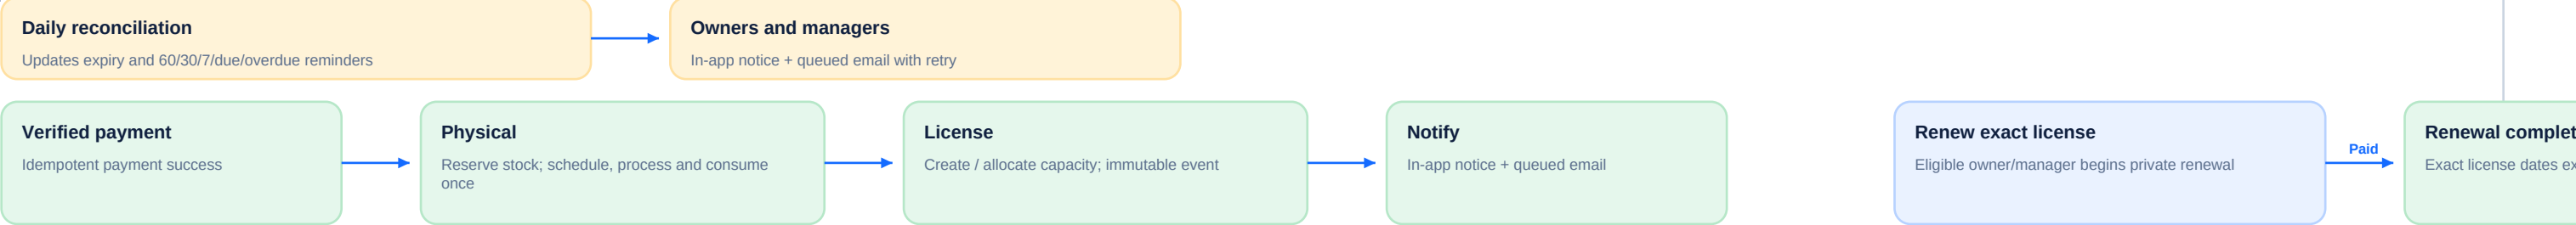

3. Catalog, capacity and checkout

4. Payment paths - payment completes only after verification

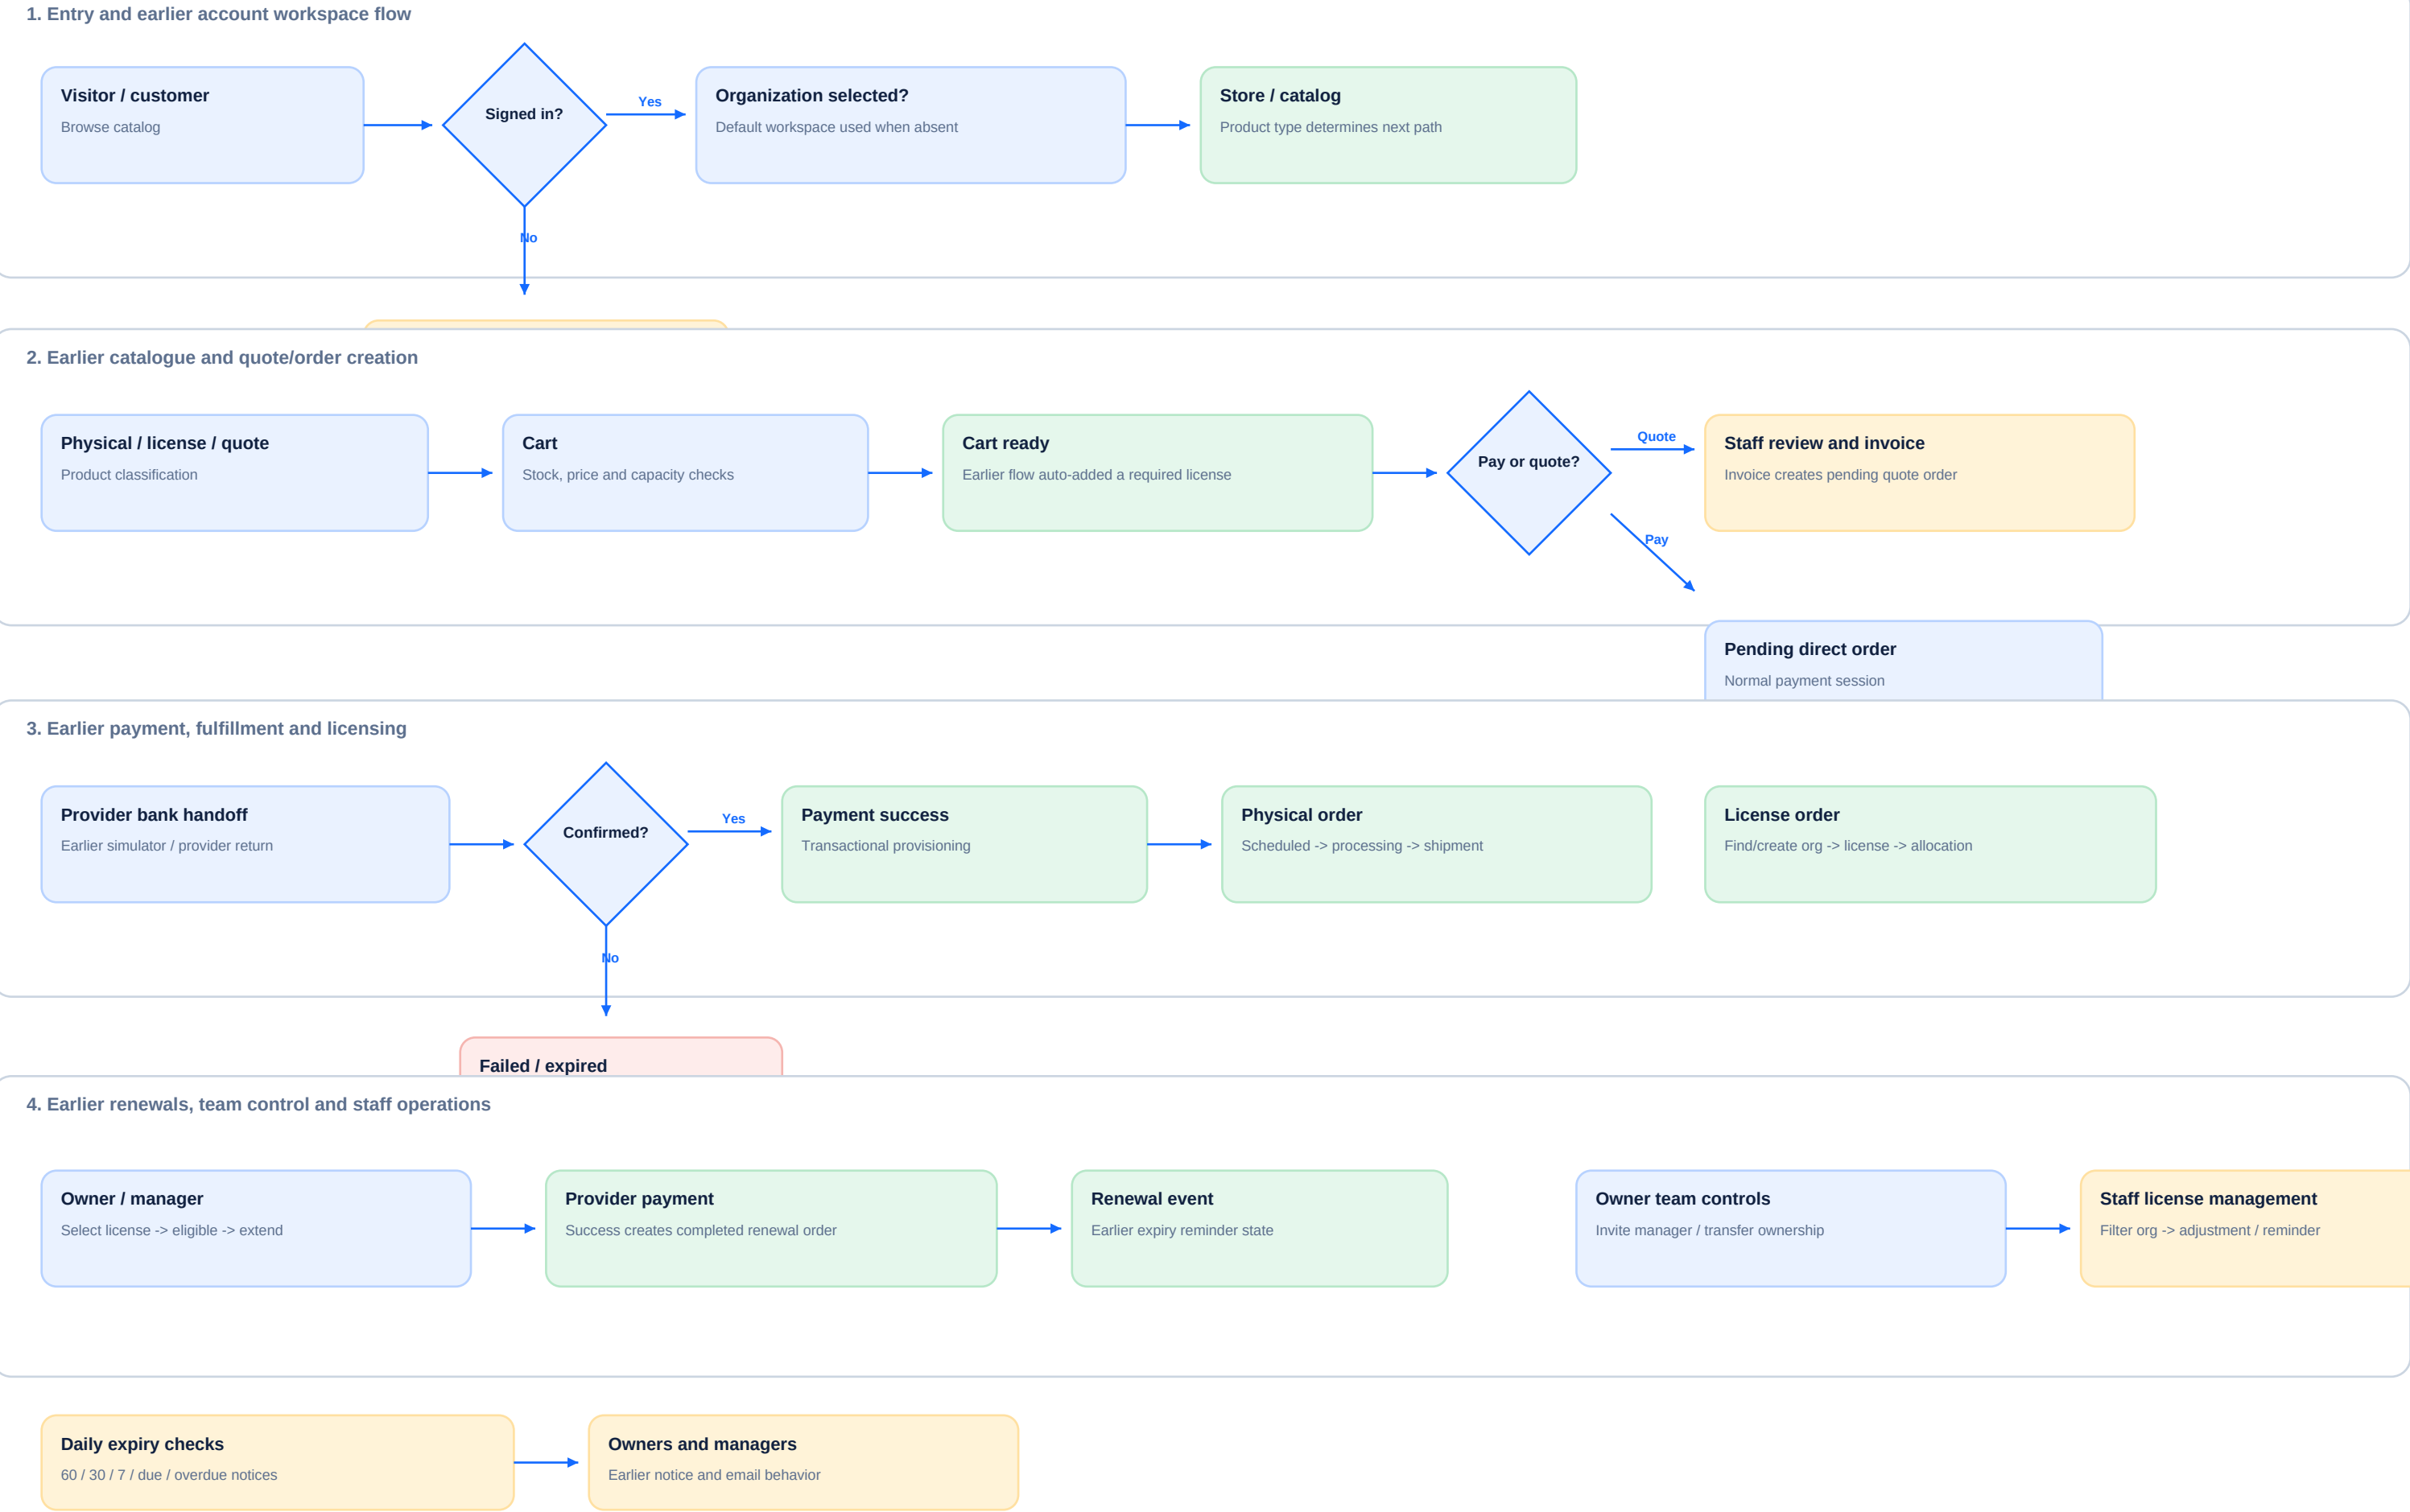

5. Provisioning, renewals and automated notices

Digital PTT - Historical Detailed Flow

Earlier 24-Aug-2026 workflow - retained for traceability only

HISTORICAL REFERENCE
Earlier design state - not current policy

Historical note: this design predates secure guest-quote claims, explicit organization selection, bank-transfer reconciliation controls, and verified-payment-only provisioning.
